

## How to prepare a 3 minute Christian testimony and witness

*Evangelize others! Lead other people to Christ by sharing what God has done in your life.*

**email your 3 minute video to: [julianne.walker@saintmary.life](mailto:julianne.walker@saintmary.life)**

**Step 1: Describe what your life was like before a turning point toward God.**

**Step 2: How did God's grace move in your life in a way that left you different?**

**Step 3: Describe how your life is now different because of that turning point of God's action and grace.**

### **Tips for preparing your testimony:**

- Each step should take roughly 1 minute to describe. When talking about life before your turning point, only include details that are important to understanding the turning point.
- When talking about your turning point, keep it centered on God. Other people and agents may be involved, but give God the glory that is due!
- When talking about life after the turning point, make connections with how that turning point was responsible for those changes.
- Finally, close with one way to invite others to respond to Jesus or welcome Him to a particular situation in their lives.
